

Texture Photo RUBRIC

Name _____

Point scale: A=100-90, B=89-80, C=79 – 70, D=69-60

	10	8	6	0
Texture	The essence of the photo is obviously texture – detail, drama, or information	X	Textures is included but not the main emphasis of the photo - not clearly detail, drama, or information	Texture is barely there in the photo.
Composition	Dynamic, well thought out, and original. Not too centered and not too much negative space. Filled the frame.	Decent composition. May be too centered or too much negative space.	Composition could use a little more thought. Think about getting closer to your subject, unique camera angles, or filling the frame of the view finder.	Looks like a snap shot – no real plan.
Test Strip	Turned in with correct exposure time present.	X	Turned in but without the correct exposure time present.	X 0 = not turned in.
Exposure	Correct exposure time. True whites and blacks with detail shown in value.	Exposure time is a bit off. Needs more time or needs less time.	Exposure is way off with little concern if any to a test strip.	Exposure is not ok.
Focus	Sharply focused.	Focused.	X	Not focused.
Scratches	No scratches on negative nor print.	Light scratches that are not too distracting.	Negative or print is scratched. Distracting.	Multiple distracting scratches.
Finger Prints	No finger prints.	X	Finger prints with little distraction.	Finger prints with much distraction.
Dust	No dust.	Little dust spots. Non-distracting.	A bit of dust. Should have brushed off the negative before printing.	Way too much dust spots.
Chemical stains	No chemical stains.	X	X	Chemical stains.
Even borders	Photo is cut to a 5x7 with even white borders.	X	Photo is somewhat cut to a 5x7 and white borders are mostly straight.	Not cut to 5x7. White borders are not even.
